Great. Consider that your Christmas present unless I find a nice red suit while having a great time out here.

Erin,  
Take a look at the table and add data for HK-10 which we did not update before you left.

Eric,  
Is this what you requested yesterday? Remember it is only draft until we all cross-check it.

We are now at CD-01 and starting to drill with the 8 inch casing. More later if there is anything to talk about.
